Osade (Velhe), Panshet Road, Pune — 50-Acre Integrated Campus

## EDUCATION CAMPUS

### Integrated Project Specification Document

CBSE/State School (K12) · Coaching Center (NEET/JEE/CET) · Library · Study Center (UPSC/MPSC)

|             |           |                          |                      |
|-------------|-----------|--------------------------|----------------------|
| Version 2.0 | July 2026 | Document Ref: EDU-EC-001 | Status: Board Review |
|-------------|-----------|--------------------------|----------------------|

This Integrated Specification Document covers all 4 projects in the Education Campus: CBSE/State School (K12), Coaching Center (NEET/JEE/CET), Library, and Study Center (UPSC/MPSC). It is the primary design brief for the appointed Architect (Omkar Yanbhar, Yo+ Architect) and Civil Engineer / Project Manager (Dr. Shivaji Padwal). Civil and non-civil items are separated. Market-researched prices from Pune/Maharashtra suppliers (July 2026) are included for budget reference — these are indicative, not tender rates.

# 1. Education Campus — Overview

The Education Campus is the intellectual heart of Club Deeper — a 5-acre academic zone housing four inter-related educational institutions. All four projects share land, infrastructure, and some facilities but maintain distinct operational identities.

| Project                                                                                                                                    | FSI Budget        | Floors  | Gross Area    | Primary Beneficiaries                    |
|--------------------------------------------------------------------------------------------------------------------------------------------|-------------------|---------|---------------|------------------------------------------|
|  CBSE/State School (K12) — Block A                        | 38,000 sq ft      | 4 (G+3) | ~38,000 sq ft | School students Cl. 5–12                 |
|  Coaching Center (NEET/JEE/CET) — Block C (separate land) | Separate campus   | 4 (G+3) | ~18,000 sq ft | Coaching students (Cl. 11–12 + Droppers) |
|  Library — Block B                                        | 5,200 sq ft       | 2 (G+1) | ~5,200 sq ft  | All campus students + staff              |
|  Study Center (UPSC/MPSC) — Within Block A                | Within school FSI | 1 floor | ~2,400 sq ft  | UPSC/MPSC aspirants                      |
| TOTAL EDUCATION CAMPUS (5-acre zone)                                                                                                       | 43,200 sq ft      | —       | ~43,200 sq ft | ~1,200+ students at full capacity        |

Important: The Coaching Center has been relocated out of this 5-acre Academic Zone to a SEPARATE land parcel with its own FSI allocation. This document still specifies the coaching centre requirements so the board and architect can plan it as a standalone building. Its cost is shown separately in the Excel cost sheet.

EDUCATION CAMPUS — PROJECT SPECIFICATION

CBSE / State School (K12)

## 2. CBSE / State School (K12) — Full Specification

### 2.1 Identity & Philosophy

**School Name:** Deeper Public School

**Affiliation:** CBSE (Central Board of Secondary Education)

**Classes:** 5 through 12

**Pedagogy:** Holistic — NEP 2020 compliant from Day 1

**Language of Instruction:** English Medium

**Exam Integration:** NEET, JEE, MHT-CET integrated into school timetable

**Vision / Motto:** To be finalised by Core Committee — TBD

**Brand Positioning:** Quality education at moderate fees — elite residential rural school

The school motto, vision statement, mission statement, and 3–5 core values are still TBD (as confirmed in the gap survey). These must be finalised before brand design, signage, and website development can begin.

### 2.2 Student Capacity & Growth Plan

| Year               | Target Students | Sections per Class                       | Notes                              |
|--------------------|-----------------|------------------------------------------|------------------------------------|
| Year 1 (2029–30)   | 200             | 1 per class                              | Classes 5–12, one section each     |
| Year 2 (2030–31)   | 400             | 2 per class                              | Double sections                    |
| Year 3 (2031–32)   | 720             | 3 per class (Cl. 5–10);<br>2 (Cl. 11–12) | Ramp-up                            |
| Year 4–5 (2032–34) | 960–1,000       | 3 per class all grades                   | Full capacity                      |
| Residential (60%)  | 576 students    | —                                        | Hostel on separate land allocation |
| Day Scholars (40%) | 384 students    | —                                        | Bus service from surrounding areas |

### 2.3 Academic Structure

| Parameter | Specification |
|-----------|---------------|
|-----------|---------------|

|                           |                                                                                      |
|---------------------------|--------------------------------------------------------------------------------------|
| Academic Calendar         | Semester system — 202–220 working days, 300 total days                               |
| School Hours              | 9:00 AM – 4:00 PM (day scholars); extended for residential students                  |
| Streams at Cl. 11–12      | Science PCM, Science PCB, Commerce (with/without Maths), Arts/Humanities, Vocational |
| Assessment (Cl. 9–10)     | CBSE — Periodic Tests + Activities + Subject Enrichment + Lab Work + Project Work    |
| Assessment (Cl. 11–12)    | CBSE prescribed internal/external split (30:70)                                      |
| Admission                 | Entrance/screening test for all incoming classes                                     |
| Vocational Education      | CBSE Skill Subjects from Class 9                                                     |
| RTE Quota                 | Yes — 25% reservation as mandated                                                    |
| NEP 2020                  | Fully adopted from Day 1                                                             |
| Co-curricular (Mandatory) | Health, Character and Discipline activities                                          |
| Co-curricular (Optional)  | Hobby, Passion, Talent, Specialisation activities                                    |
| Community Service         | Integration with Club Deeper Rural Development programme                             |

## 2.4 Building Specification — Block A

| Parameter                                    | Value                                                                               |
|----------------------------------------------|-------------------------------------------------------------------------------------|
| Location                                     | North-west quadrant of 5-acre Academic Zone                                         |
| Total Built-Up Area (FSI consumed)           | 38,000 sq ft                                                                        |
| Footprint per Floor                          | 9,500 sq ft (approx. 97 ft × 97 ft — nearly square)                                 |
| Number of Floors                             | 4 (Ground + First + Second + Third)                                                 |
| Building Height                              | ~48 ft (4 × 12 ft floor-to-floor clearance)                                         |
| Construction Material                        | Composite (RCC structure + green building features)                                 |
| Estimated Construction Cost (@ ₹2,500/sq ft) | ₹9.50 Cr                                                                            |
| Passenger Lift                               | 1 no. — 8-person capacity, all 4 floors                                             |
| Service Lift                                 | 1 no. — adjacent to kitchen on First Floor, for food/supply delivery                |
| Staircases                                   | 2 fire staircases — one at each end of building (as per NBC fire norms)             |
| Corridor Design                              | Double-loaded central corridor — 10 ft wide — classrooms both sides                 |
| Ventilation / Climate                        | Cross-ventilated aerated rooms + mist cooling system — target 22°C room temperature |
| Fume Exhaust Shaft                           | Dedicated full-height shaft from Ground Floor to roof (Chemistry Lab)               |

|               |                                                                                    |
|---------------|------------------------------------------------------------------------------------|
| Rooftop       | Accessible terrace — structural loading for 50–100 KWp rooftop solar               |
| CCTV          | 500 cameras across full campus — approx. 80–100 in school block                    |
| Water Storage | 175,000 litres (campus-wide — school draws from central supply)                    |
| Power Backup  | Generator backup (KVA TBD by electrical consultant) + UPS for server room and labs |

2.5 Floor-by-Floor Stacking Plans

All four floor plans below show the spatial layout of Block A. These are schematic representations — not architectural drawings. The architect will refine exact dimensions based on structural requirements.

Ground Floor — Admin Block + Science Labs

| GROUND FLOOR — Admin Block + 4 Science Labs (~9,500 sq ft footprint) |                                                                 |                                                                    |                |                                                                |                               |                     |
|----------------------------------------------------------------------|-----------------------------------------------------------------|--------------------------------------------------------------------|----------------|----------------------------------------------------------------|-------------------------------|---------------------|
| ENTRY LOBBY + LIFT                                                   | PRINCIPAL OFFICE + MTG 500 sq ft                                | VP 1 200 sq ft                                                     | VP 2 200 sq ft | VP 3 200 sq ft                                                 | ADMIN / RECEPTION 1,200 sq ft | MEDICAL 400 sq ft   |
| CENTRAL CORRIDOR 10 ft wide                                          |                                                                 |                                                                    |                |                                                                |                               |                     |
| STAIR A                                                              | PHYSICS LAB 1,200 sq ft 30 workstations Safety kit, instruments | CHEMISTRY LAB 1,200 sq ft 30 workstations Fume hoods, gas, eyewash |                | BIOLOGY LAB 1,200 sq ft 30 workstations Microscopes, specimens |                               | EXAM CTRL 300 sq ft |
| STAIR B                                                              | WC BOYS                                                         | WC GIRLS                                                           | WC STAFF M     | WC STAFF F                                                     | WC ACCESS.                    | STORE               |

- Science labs (Physics, Chemistry, Biology, Junior) must be on Ground Floor — mandatory for safety. Gas lines, chemical storage, fume exhaust, and emergency evacuation all require ground-level access.
- Chemistry Lab: dedicated fume exhaust duct must rise full 4-floor height from Ground to roof — structural shaft to be planned from Day 1 in structural design.
- Admin, Principal, and VP offices on Ground Floor — visitors and parents never need to go above ground level.
- Medical bay on Ground Floor — easy stretcher access and emergency exit.

First Floor — Classrooms (Cl. 5–6) + Canteen + Tech Labs

| FIRST FLOOR — 10 Classrooms (Cl. 5–6) + Computer Lab + Maths Lab + Canteen (~9,500 sq ft) |                   |                   |                   |                                 |                     |          |
|-------------------------------------------------------------------------------------------|-------------------|-------------------|-------------------|---------------------------------|---------------------|----------|
| LIFT + STAIR A                                                                            | CLASS 1 600 sq ft | CLASS 2 600 sq ft | CLASS 3 600 sq ft | CLASS 4 600 sq ft               | CLASS 5 600 sq ft   | WC BOYS  |
| CORRIDOR                                                                                  |                   |                   |                   |                                 |                     |          |
| STAIR B                                                                                   | CLASS 6 600 sq ft | CLASS 7 600 sq ft | CLASS 8 600 sq ft | COMP. LAB 1,500 sq ft 36–40 PCs | MATHS LAB 600 sq ft | WC GIRLS |

**CANTEEN / DINING HALL — 3,000 sq ft · 200 seats per sitting · 2 sittings daily · Deeper Coins cashless**

- Youngest classes (5–6) on lowest occupied floor — minimum stair climb, easy evacuation.
- Canteen on First Floor: service lift required for kitchen supply delivery from ground. Service lift separate from passenger lift.
- Computer Lab and Maths Lab on First Floor — tech access available to junior classes.
- Canteen payment: Deeper Coins cashless system — POS terminals at all serving counters.

## Second Floor — Classrooms (Cl. 7–10) + Staff + Seminar + Breakout

| SECOND FLOOR — 10 Classrooms (Cl. 7–10) + Staff Rooms + Seminar + Breakout (~9,500 sq ft) |                     |                     |                    |                      |                      |                      |           |

| STAIR B                                                                                   | CLASS 16 600 sq ft  | CLASS 17 600 sq ft  | CLASS 18 600 sq ft | STAFF RM 1 300 sq ft | STAFF RM 2 300 sq ft | STAFF RM 3 300 sq ft | WC        |
| STAIR A                                                                                   | SEMINAR 1 400 sq ft | SEMINAR 2 400 sq ft | BRKOUT 1 300 sq ft | BRKOUT 2 300 sq ft   | BRKOUT 3 300 sq ft   | BRKOUT 4 300 sq ft   | STAFF 4+5 |

- 5 department staff rooms — separate rooms per department (Science, Maths, Languages, Social Studies, Commerce/Arts).
- 4 seminar/conference rooms for teacher meetings, parent consultations, and small workshops.
- 4 breakout rooms for group projects, student club meetings, and collaborative work.

## Third Floor — Classrooms (Cl. 11–12) + Robotics Lab + Arts Studio

| THIRD FLOOR — 10 Classrooms (Cl. 11–12) + Robotics Lab + Arts Studio (~9,500 sq ft) · SOLAR ROOF |                                                                         |                                                                           |                    |                    |                    |    |

- Senior classes (11–12) on top floor — can tolerate higher stair climb; senior students less likely to need emergency evacuation vs labs.
- Robotics/AI/Coding Lab: equipment per survey — computers, mechanical kits, IoT bench, 3D printer. Equipment list to be finalised with technology consultant.
- Arts/Music/Dance studio: instruments per survey — keyboard, tabla, harmonium, guitar. Sprung floor and mirror wall are aspirational — to be confirmed with architect.

- Rooftop above 3F: accessible terrace with solar panels. Structural loading for 50–100 KWp to be included in structural brief.

## 2.6 Complete Room Schedule — Civil Scope (School)

| Room Type                                 | Count | Unit Area (sq ft) | Total Area (sq ft) | Floor                           | Civil Notes                                      |
|-------------------------------------------|-------|-------------------|--------------------|---------------------------------|--------------------------------------------------|
| Standard classrooms                       | 30    | 600               | 18,000             | 1F(×10),<br>2F(×10),<br>3F(×10) | Double-loaded corridor; each 20 ft × 30 ft       |
| Physics lab                               | 1     | 1,200             | 1,200              | G                               | Dry benches; gas/water not reqd; safety kit      |
| Chemistry lab (with fume duct shaft)      | 1     | 1,200             | 1,200              | G                               | Full-height fume shaft; wet benches; gas+water   |
| Biology lab                               | 1     | 1,200             | 1,200              | G                               | Wet benches; specimen storage; biosafety         |
| Junior science lab (Cl. 5–8 shared)       | 1     | 1,200             | 1,200              | G                               | Combined dry/wet; basic safety provisions        |
| Computer lab (36–40 seats)                | 1     | 1,500             | 1,500              | 1F                              | Raised flooring for cabling; AC mandatory        |
| Robotics / AI / Coding lab                | 1     | 1,200             | 1,200              | 3F                              | AC; power points every 2m; cable management      |
| Mathematics lab                           | 1     | 600               | 600                | 1F                              | Standard classroom with storage shelving         |
| Principal office + attached meeting room  | 1     | 500               | 500                | G                               | Attached WC; meeting room for 8 pax              |
| Vice Principal offices                    | 3     | 200               | 600                | G                               | Individual offices with lockable storage         |
| Admin / front office / reception          | 1     | 1,200             | 1,200              | G                               | Open plan; counter; 2 meeting cabins             |
| Staff rooms (dept-wise)                   | 5     | 300               | 1,500              | 2F                              | One per dept; workstations + storage             |
| Seminar / conference rooms                | 4     | 400               | 1,600              | 2F                              | Seats 12–15 pax; projector; soundproofed         |
| Breakout / activity rooms                 | 4     | 300               | 1,200              | 2F                              | Flexible furniture; writeable walls              |
| Multi-purpose arts / music / dance studio | 1     | 800               | 800                | 3F                              | High ceiling (min 14 ft); rubber flooring option |
| Exam control room                         | 1     | 300               | 300                | 3F                              | Secure; CCTV feed; filing storage                |

|                                   |   |       |              |            |                                              |
|-----------------------------------|---|-------|--------------|------------|----------------------------------------------|
| IT / server room                  | 1 | 200   | 200          | G          | AC mandatory; UPS; raised floor              |
| Medical / sick bay                | 1 | 400   | 400          | G          | 2–4 beds; attached WC; first aid storage     |
| Canteen / dining hall             | 1 | 3,000 | 3,000        | 1F         | Service lift adjacent; 200-seat capacity     |
| Kitchen                           | 1 | 1,000 | 1,000        | 1F         | PNG gas; walk-in cold room; commercial grade |
| Tuck shop                         | 1 | 200   | 200          | 1F         | Counter service; Deeper Coins POS            |
| Store rooms                       | 4 | 150   | 600          | 2F, 3F     | Lockable; adjacent to staff rooms            |
| Washroom clusters (G, 1F, 2F, 3F) | 4 | 600   | 2,400        | All floors | Boys/Girls/Staff/ Accessible per floor       |
| TOTAL NET SCHOOL                  | — | —     | 41,600 sq ft | 4 floors   | FSI budget: 38,000 sq ft (tight — 22% circ.) |

## 2.7 Washroom Provision

| Washroom Type      | Ratio         | Count Required | Notes                                             |
|--------------------|---------------|----------------|---------------------------------------------------|
| Student WC — Boys  | 1:25 students | 24 WC units    | Distributed across all floors                     |
| Student WC — Girls | 1:25 students | 24 WC units    | Separate from boys — each floor                   |
| Staff WC — Male    | 1:15 staff    | 3 WC units     | On staff room floors                              |
| Staff WC — Female  | 1:15 staff    | 3 WC units     | On staff room floors                              |
| Accessible WC      | 1 per floor   | 4 WC units     | Ground + all upper floors                         |
| TOTAL              | —             | ~58 WC units   | Across 4 floors; plan 600 sq ft per floor cluster |

## EDUCATION CAMPUS — SEPARATE LAND — PROJECT SPECIFICATION

**Coaching Center (NEET/JEE/CET)**

### 3. Coaching Center (NEET/JEE/CET) — Full Specification

This coaching centre is NOT within the 5-acre Academic Zone. It will be planned on a SEPARATE land parcel on the Club Deeper campus. The specification below is complete so the architect can design it as a standalone building. FSI, land area, and exact location to be confirmed by the Core Committee.

#### 3.1 Identity & Scope

**Name & Tagline:** TBD — to be confirmed by Core Committee

**Target Exams:** NEET, JEE Main, JEE Advanced, MHT-CET (Engineering), MHT-CET (Pharmacy)

**Programme Types:** 2-year (Cl. 11+12+exam), 1-year (Cl. 12+exam), 1-year dropper batch

**Batch Size:** 100–120 students per batch

**Student Type:** Residential primary + Day scholars (both)

**Mentorship:** Yes — formal mentorship programme pairing each student with a faculty mentor

**Parent Communication:** On demand (daily/weekly/monthly/periodic) via SMS, WhatsApp, Email + Eduval app

**Leave Policy:** TBD — to be confirmed by Core Committee

**Daily Routine:** TBD — to be confirmed by Core Committee

#### 3.2 Building Specification — Separate Block

| Parameter                                    | Value                                                                  |
|----------------------------------------------|------------------------------------------------------------------------|
| Location                                     | Separate land parcel — exact location TBD by Core Committee            |
| Total Built-Up Area (estimated)              | ~18,000 sq ft                                                          |
| Footprint per Floor                          | ~4,500 sq ft per floor (approx. 90 ft × 50 ft)                         |
| Number of Floors                             | 4 (Ground + First + Second + Third)                                    |
| Building Height                              | ~54 ft (First Floor ceiling 18 ft for lecture hall sightlines)         |
| Estimated Construction Cost (@ ₹2,500/sq ft) | ₹4.50 Cr                                                               |
| Internet Bandwidth                           | TBD — high speed required for CBT and video lectures                   |
| CBT Lab Power                                | Dedicated electrical distribution — 200 computers generate significant |

3.3 Floor-by-Floor Stacking

| Floor  | Rooms & Spaces                                                                                                               | Area         | Key Civil Notes                                                            |
|--------|------------------------------------------------------------------------------------------------------------------------------|--------------|----------------------------------------------------------------------------|
| Ground | CBT Lab 1 (100 computers, 2,000 sq ft) · CBT Lab 2 (100 computers, 2,000 sq ft) · Reception/admin (300 sq ft) · Washrooms    | ~4,500 sq ft | Raised floor for cable mgmt; AC mandatory; heavy power load                |
| First  | Lecture Hall A (120 students, 1,800 sq ft) · Lecture Hall B (120 students, 1,800 sq ft) · Washrooms                          | ~4,500 sq ft | 18 ft ceiling min; acoustic wall between halls; AV screen; blackout blinds |
| Second | Coaching Classroom 1–4 (4 × 120 students, 1,500 sq ft each) · Washrooms                                                      | ~6,000 sq ft | Acoustic treatment; whiteboard + IFP; AC; recording option                 |
| Third  | Faculty preparation room (500 sq ft) · 2 Counselling rooms (200 sq ft each) · Student recreation room (400 sq ft) · Staff WC | ~2,500 sq ft | Quieter zone; counselling rooms soundproofed                               |

3.4 Room Schedule — Civil Scope (Coaching)

| Room Type                                           | Count | Unit Area   | Total Area  | Floor | Civil Notes                                            |
|-----------------------------------------------------|-------|-------------|-------------|-------|--------------------------------------------------------|
| Coaching classrooms (120 students, movable seating) | 4     | 1,500 sq ft | 6,000 sq ft | 2F    | IFP; recording setup; AC; acoustic treatment           |
| Lecture halls (120 students flexible)               | 2     | 1,800 sq ft | 3,600 sq ft | 1F    | 18 ft ceiling; stage platform; AV; acoustic walls      |
| CBT computer labs (100 seats each)                  | 2     | 2,000 sq ft | 4,000 sq ft | G     | Raised floor; AC; 100 power points; 2 projectors       |
| Faculty preparation room                            | 1     | 500 sq ft   | 500 sq ft   | 3F    | Research desks; reference storage; lockable            |
| Admin / reception                                   | 1     | 300 sq ft   | 300 sq ft   | G     | Student entry; enquiry counter                         |
| Counselling rooms (soundproofed)                    | 2     | 200 sq ft   | 400 sq ft   | 3F    | Acoustic door; 2 chairs + table; no window to corridor |
| Student recreation room                             | 1     | 400 sq ft   | 400 sq ft   | 3F    | TV; indoor games; relaxed seating                      |
| Washroom clusters (4 floors)                        | 4     | 300 sq ft   | 1,200 sq ft | All   | Boys/Girls/Staff per floor                             |

|                    |   |   |              |          |                                        |
|--------------------|---|---|--------------|----------|----------------------------------------|
| TOTAL NET COACHING | — | — | 16,400 sq ft | 4 floors | Separate land; separate FSI allocation |
|--------------------|---|---|--------------|----------|----------------------------------------|

EDUCATION CAMPUS — PROJECT SPECIFICATION

Library

## 4. Library — Full Specification

### 4.1 Identity & Scope

- Name & Tagline:** TBD — to be confirmed by Core Committee
- Operating Philosophy:** Open-access lending library with digital supplement
- Operating Hours:** 7:00 AM – 11:00 PM (including evenings for residential students)
- Membership:** Included in school/hostel fees — no separate charge
- Community Access:** No — campus only
- Programmes:** TBD — reading clubs, author visits, book fairs (to be scheduled by librarian)
- Soft Book Reading:** Yes — comfortable soft seating zones planned
- Digital Subscriptions:** Yes — NCERT digital, academic journals, JSTOR (as budget allows)

### 4.2 Building Specification — Block B

| Parameter                                    | Value                                                                                             |
|----------------------------------------------|---------------------------------------------------------------------------------------------------|
| Location                                     | South of Block A (School), connected via covered walkway                                          |
| Total Built-Up Area (FSI consumed)           | 5,200 sq ft                                                                                       |
| Footprint per Floor                          | 2,600 sq ft (approx. 100 ft × 26 ft — long narrow for maximum natural light)                      |
| Number of Floors                             | 2 (Ground + First)                                                                                |
| Building Height                              | ~26 ft (or 32 ft if double-height reading hall chosen)                                            |
| Connection to School                         | Covered walkway at ground level — students move between school and library without going outdoors |
| Estimated Construction Cost (@ ₹2,500/sq ft) | ₹1.30 Cr                                                                                          |
| Ceiling Height Option                        | Double-height reading hall (18 ft) — adds volume and light; no extra FSI consumed — RECOMMENDED   |
| Window Design                                | Full-height east and west windows for natural daylight in reading hall                            |
| Staircase                                    | 1 staircase at east end; ramp for accessibility preferred over lift (2-floor building)            |

### 4.3 Floor Plans — Library

#### Library Ground Floor — Main Reading Hall + Junior Library

| LIBRARY — GROUND FLOOR (100 ft × 52 ft = 2,600 sq ft) · Natural light east + west                                                               |                                                                  |                             |                      |        |
|-------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------|-----------------------------|----------------------|--------|
| MAIN READING HALL — SILENT ZONE 1,500 sq ft · 300 individual reading desks RFID tracking · High shelving N+S walls Double-height ceiling option | JUNIOR LIBRARY 700 sq ft Sep. room Cl. 5–8 Child-scale furniture | NEWS-PAPER LOUNGE 300 sq ft | LIBR. OFF. 200 sq ft | WC 150 |

- Main reading hall (1,500 sq ft, 300 seats): individual study desks, not group tables. RFID book tracking at entry/exit point. High shelving on north and south walls.
- Junior library (700 sq ft): completely separate room with its own entrance. Child-scale furniture, picture books, lower shelving. Classes 5–8 use independently from senior students.
- Double-height ceiling (18 ft) in reading hall: architect to explore partial first-floor void above main reading area — adds volume and natural light, no extra FSI cost.

#### Library First Floor — 10 Study Rooms + e-Library + Marathi Section

| LIBRARY — FIRST FLOOR (2,600 sq ft) · 10 Soundproofed Study Rooms + e-Library + Marathi Section                           |                                  |                      |                      |                      |                      |                      |                      |                      |                      |
|---------------------------------------------------------------------------------------------------------------------------|----------------------------------|----------------------|----------------------|----------------------|----------------------|----------------------|----------------------|----------------------|----------------------|
| STUDY 1<br>120 sq ft<br>10 seats                                                                                          | STUDY 2<br>120 sq ft<br>10 seats | STUDY 3<br>120 sq ft | STUDY 4<br>120 sq ft | STUDY 5<br>120 sq ft | STUDY 6<br>120 sq ft | STUDY 7<br>120 sq ft | STUDY 8<br>120 sq ft | e-LIB DIGITAL TERMS. | MARATHI LIT. SECTION |
| Studies 9+10 behind e-Library zone · All study rooms: fully soundproofed + acoustic door + glass panel + AV screen inside |                                  |                      |                      |                      |                      |                      |                      |                      |                      |

- All 10 study rooms: fully soundproofed walls, acoustic door with glass panel, AV screen inside. Used for coaching doubt-clearing sessions and group study.
- e-Library digital terminals: dedicated area with desktop computers for accessing NCERT digital and online databases. Number of terminals TBD with budget.
- Marathi literature section: dedicated shelving unit, prominently displayed and labeled.

### 4.4 Book Collection Plan

| Category                                              | Target at Launch | Notes                         |
|-------------------------------------------------------|------------------|-------------------------------|
| NCERT + State board textbooks (Cl. 5–12, all streams) | 2,000 books      | Annual update required        |
| Reference + competitive exam (NEET, JEE, UPSC/MPSC)   | 2,500 books      | Shared with coaching students |
| Fiction + English literature                          | 1,500 books      | All ages — general reading    |
| Marathi literature — dedicated section                | 1,500 books      | Prominently displayed         |

|                                                               |                                 |                                      |
|---------------------------------------------------------------|---------------------------------|--------------------------------------|
| Children's picture books<br>(Junior library — Cl. 5–8)        | 1,000 books                     | Child-scale shelving                 |
| Research journals +<br>academic magazines                     | 800 volumes                     | Print subscriptions                  |
| Newspapers (Hindi, Marathi,<br>English — daily)               | Ongoing subscription            | Newspaper lounge; 3+ daily papers    |
| TOTAL at launch                                               | ~9,300 books (target<br>10,000) | Annual acquisition budget: ₹20 Lakhs |
| Initial setup budget<br>(furniture, shelving, tech,<br>books) | ₹20 Lakhs                       | Per survey response                  |

4.5 Room Schedule — Civil Scope (Library)

| Room Type                                                    | Cou<br>nt | Unit Area          | Total Area  | Floor    | Civil Notes                                                               |
|--------------------------------------------------------------|-----------|--------------------|-------------|----------|---------------------------------------------------------------------------|
| Main reading hall<br>— silent zone<br>(300 reading<br>seats) | 1         | 1,500 sq ft        | 1,500 sq ft | G        | Double-height ceiling (18<br>ft) option; full-height<br>east/west windows |
| Junior library —<br>separate room<br>(Classes 5–8)           | 1         | 700 sq ft          | 700 sq ft   | G        | Own entrance; lower<br>ceiling acceptable; child-<br>scale fixtures       |
| Newspaper +<br>periodical lounge                             | 1         | 300 sq ft          | 300 sq ft   | G        | Relaxed seating; magazine<br>display racks; natural light                 |
| Librarian office +<br>work area                              | 1         | 200 sq ft          | 200 sq ft   | G        | RFID system terminal;<br>book processing desk;<br>lockable storage        |

| e-Library digital<br>terminals zone                          | 1         | Part of 1F<br>open | incl.       | 1F       | Open area with power<br>points every 1.5m; cable<br>management            |
| Marathi literature<br>section                                | 1         | Part of 1F<br>open | incl.       | 1F       | Dedicated shelving bay;<br>signage                                        |
| Washrooms                                                    | 2         | 150 sq ft          | 300 sq ft   | G + 1F   | Compact;<br>male/female/accessible                                        |
| TOTAL NET<br>LIBRARY                                         | —         | —                  | 4,200 sq ft | 2 floors | FSI budget: 5,200 sq ft<br>(includes 25% circulation)                     |

EDUCATION CAMPUS — PROJECT SPECIFICATION

## 5. Study Center (UPSC/MPSC) — Full Specification

### 5.1 Identity & Scope

**Name & Tagline:** TBD — to be confirmed by Core Committee

**Target Exams:** UPSC Civil Services (IAS/IPS), MPSC State Services, MPSC Group B/C, Maharashtra Police Bharti, Banking (IBPS/SBI), SSC, Defence (NDA/CDS), Judiciary

**Mode:** Residential + Day scholars

**Library Resources:** Shared with campus library — no separate dedicated library stock. UPSC/MPSC specific books to be tagged/shelved in a dedicated section of the main library.

**Study Tours:** No — committee confirmed

**Funding Model:** Mixed — CSR, foundation grants, government schemes

**Social Mission:** Empowerment of rural Maharashtra UPSC/MPSC aspirants — subsidised/free seats

### 5.2 Location within Campus

The Study Center is housed within Block A (School Building) on a dedicated portion of the ground and/or first floor, using shared infrastructure (library, canteen, medical) with the school. It is a programmatic space within the school block, not a separate building.

| Space                           | Area                        | Floor                                 | Notes                                                  |
|---------------------------------|-----------------------------|---------------------------------------|--------------------------------------------------------|
| Lecture/teaching rooms (2 nos.) | 2 × 600 sq ft = 1,200 sq ft | G or 1F (shared schedule with school) | Use school seminar rooms in off-hours                  |
| Self-study hall (dedicated)     | 800 sq ft                   | Within school block                   | Individual cubicles; open 7 AM–11 PM                   |
| Faculty room (1 no.)            | 300 sq ft                   | Within school block                   | Shared with school staff rooms                         |
| Interview preparation room      | 100 sq ft                   | Within school block                   | Soundproofed; professional setup; use counselling room |
| TOTAL STUDY CENTRE SPACES       | ~2,400 sq ft                | Within school block                   | No separate building — uses school infrastructure      |

## 5.3 Programmes Offered

| Programme                              | Duration         | Medium            | Notes                                          |
|----------------------------------------|------------------|-------------------|------------------------------------------------|
| Foundation + Prelims integrated course | 12–18 months     | Marathi + English | Dedicated Marathi medium batches for MPSC      |
| Mains writing programme                | 6 months         | Marathi + English | Daily answer writing with evaluation           |
| Interview preparation                  | 3 months         | English           | Mock interviews with retired IAS/IPS panel     |
| Current affairs programme              | Ongoing          | Both              | Daily newspaper + curated notes + weekly tests |
| Target fee (annual, residential)       | ₹60,000 per year | —                 | Competitive pricing for rural aspirants        |
| Free/subsidised seats                  | TBD number       | —                 | For EWS rural aspirants — funded by CSR/grants |

## 6. Shared Campus Services — Education Campus

The following services are shared across all four Education Campus projects. They are not project-specific but must be designed and specified as part of the overall campus infrastructure.

### 6.1 Security & Safety

| System            | Specification                                                                                | Quantity (Education Campus)                            |
|-------------------|----------------------------------------------------------------------------------------------|--------------------------------------------------------|
| CCTV Cameras      | IP-based HD cameras; 30-day NVR storage; remote monitoring via Eduval security module        | 80–100 cameras in school block; 30 at library+coaching |
| CCTV NVR Server   | 16/32-channel NVR units with 30-day storage                                                  | 2–3 units for education block                          |
| Boom Barrier      | At main entry — vehicle access control                                                       | 1 at Academic Zone gate                                |
| PA System         | Digital integrated PA + bell (centralised control room); all rooms + corridors               | 1 campus-wide system                                   |
| Fire Safety       | Sprinklers (wet pipe), fire extinguishers (ABC type), smoke detectors, fire exits, hose reel | Per NBC norms — fire consultant to specify             |
| Perimeter Fencing | Compound wall — 6 ft concrete slab boundary @ ₹400/metre                                     | Perimeter of 5-acre zone (~2.8 km estimated)           |

### 6.2 Utilities

| Utility                      | Specification                                                                                      |
|------------------------------|----------------------------------------------------------------------------------------------------|
| Water Storage                | 175,000 litres total (campus-wide); overhead tanks + underground sumps; filtered + RO for drinking |
| Power — School Block         | Generator backup (KVA TBD by electrical consultant); UPS for server room, labs, and medical bay    |
| Solar Power                  | Rooftop solar — KWp TBD; structural loading for 50–100 KWp on Block A roof                         |
| Wi-Fi                        | Campus-wide high-speed Wi-Fi; all classrooms, labs, library, corridors, outdoor plaza              |
| Waste Management             | Plastic-free campus policy; solid waste segregation; organic composting                            |
| Biogas Plant                 | TBD — capacity to be determined based on kitchen/campus waste volume                               |
| STP (Sewage Treatment Plant) | Required — capacity TBD by MEP consultant                                                          |

## 7. Civil Engineer & Architect — Key Design Notes

### 7.1 Critical structural requirements

- Chemistry Lab fume exhaust shaft: must run from Ground Floor to roof — 18 inch × 18 inch minimum shaft. Plan from Day 1 in structural drawings.
- Canteen service lift: 600 kg capacity minimum; adjacent to kitchen on First Floor; shaft from Ground Floor (delivery bay) to First Floor.
- Laboratory gas lines: PNG piping from meter bank to Chemistry Lab; Bunsen burner connections at each workbench. Physics and Biology labs do not need gas.
- Computer lab raised floor: 6 inch raised access floor for cable management; separate AC unit (split or precision cooling); UPS provisions.
- Double-loaded corridor: 10 ft clear corridor width; classrooms opening off both sides. Structural wall at classroom perimeter — no structural columns inside classrooms.
- Rooftop solar: structural loading for 50–100 KWp (approx. 400–800 sqm of panels); waterproofing must accommodate panel footings.
- Library double-height: if double-height ceiling is adopted for reading hall, the First Floor slab will have a partial void over the reading area — structural beams to span this void. Consult structural engineer.
- Study room soundproofing: 10 study rooms on Library First Floor must use double-skin acoustic walls (brick/block with air gap + mineral wool); STC 45 minimum.
- Coaching lecture halls: 18 ft clear ceiling height on First Floor of coaching block — significantly increases overall building height on that floor; structural engineering required for long-span 50 ft beam.
- Emergency vehicle access: fire engine and ambulance turning circles at each building entry — minimum 9m radius clear turning area.

### 7.2 Board decisions required before architecture commences

| # | Decision                                      | Options                                                   | Deadline                          |
|---|-----------------------------------------------|-----------------------------------------------------------|-----------------------------------|
| 1 | School motto, vision, mission, core values    | Core Committee to finalise — TBD (currently empty)        | Before brand design begins        |
| 2 | Library double-height ceiling                 | Yes (recommended) or No                                   | Before schematic design           |
| 3 | Coaching Centre land — exact location and FSI | Board to allocate specific land parcel for coaching block | Before coaching design begins     |
| 4 | Coaching Centre name and tagline              | TBD                                                       | Before brand design begins        |
| 5 | Study Centre name and tagline                 | TBD                                                       | Before brand design begins        |
| 6 | Coaching daily routine structure              | TBD                                                       | Before hostel design for coaching |

|    |                        |                                      |                                     |
|----|------------------------|--------------------------------------|-------------------------------------|
| 7  | Coaching leave policy  | TBD                                  | Before operations planning          |
| 8  | Biogas plant capacity  | TBD — based on kitchen waste volumes | Before utilities design             |
| 9  | Solar KWp target       | TBD — by solar consultant            | Before structural design of rooftop |
| 10 | Total power load (KVA) | TBD — by electrical consultant       | Before generator sizing             |

## 8. Fit-Out Inventory — Non-Civil Items with Market Prices

All items below are NON-CIVIL — they go through separate procurement processes after the building shell is complete. Prices are based on July 2026 Pune/Maharashtra market research from IndiaMART, manufacturer websites, and local distributors. These are indicative — get fresh quotations before procurement.

### 8.1 Classroom Furniture & AV — School

| Item                                     | Spec                                                                 | Qty                                         | Unit Price (₹) | Total (₹)  | Source / Notes                                                                       |

| CAMPUS (Civil + Fit-out)     |  |  |               | Crores total                                              |
| Contingency (10%)            |  |  | ₹2,36,57,150  | Standard project contingency                              |
| GRAND TOTAL EDUCATION CAMPUS |  |  | ₹26,02,28,650 | ~₹26 Crores — ref: survey estimate ₹15 Cr for school only |

Reference: The survey response estimated ₹15 Cr for the school block (Phase 1 only). This detailed specification puts the school + library civil cost at ₹10.80 Cr for the 5-acre zone structures, plus coaching at ₹4.75 Cr, plus fit-out ₹3.6 Cr, plus utilities and landscaping ₹4.5 Cr — totalling ~₹26 Cr for the complete Education Campus including the coaching block on separate land. The project cost estimate should be validated by the appointed civil engineer (Dr. Shivaji Padwal) against this specification.
