

CLUB DEEPER LLP

Osade (Velhe), Panshet Road, Pune — 50-Acre Integrated Campus

SOCIAL PROJECTS

Integrated Project Specification Document

 Old Age Home ·  Care Center ·  Hospital

Version	Date	Document Ref	Status
v2.0	July 2026	EDU-SP-003	Board Review

This document covers the three Social Projects: Old Age Home, Care Center, and Hospital. These projects serve the campus community and surrounding rural population with healthcare and social welfare services. Market-researched prices from Pune/Maharashtra (July 2026) are included. This is the design brief for the architect and civil engineer.

SOCIAL PROJECTS — PROJECT SPECIFICATION

Old Age Home

1. Old Age Home — Full Specification

1.1 Vision & Positioning

- Model:** Mix of paid premium + subsidised social (confirmed in survey)
- Positioning:** Premium care + subsidised seats for deserving elderly
- Total Capacity:** 50 residents
- Minimum Age:** 50+ years (survey response — lower than usual 60+; board to confirm)
- Building Type:** Separate dedicated building on campus — not integrated with residential community
- Dementia/Alzheimer's:** No — independent seniors only
- Bedridden Residents:** No — only independent/semi-independent residents
- Wheelchair Accessibility:** Yes — fully accessible throughout: rooms, corridors, bathrooms
- Medical Care Level:** Hospital-level ICU and emergency — formal SLA with Club Deeper Hospital
- Emergency Call System:** Smart sensor-based monitoring in every room and bathroom
- Caregiver-to-Resident Ratio:** 1:5
- Psychologist:** Yes — available for residents

1.2 Room Types & Common Spaces

Space Type	Description	Coun t	Area (sq ft)	Total (sq ft)
Single private room	Private room; attached WC; emergency call; smart sensor	30	250	7,500
Double/shared room	2-bed shared; attached WC; emergency call	8	350	2,800
Couple suite	Suite for couple; private; larger bathroom	6	400	2,400
Resident common spaces — total	Dining hall + garden + temple/prayer + TV lounge + activity room + vegetable garden	—	—	3,000
Visitor rooms	2 visitor rooms + 3 guest accommodation rooms	5	200	1,000
Medical/nursing station	Nursing station + physiotherapy room +	3	400	1,200

	yoga/wellness room			
Admin + staff facilities	Reception + admin + staff room + warden quarters	—	—	800
Washrooms (common)	Accessible washrooms in common areas	4	100	400
TOTAL NET BUILT-UP	—	—	—	19,100 sq ft
GROSS (incl. 30% circulation)	—	—	—	~24,800 sq ft

1.3 Specialised Care Facilities

Facility	Specification	Notes
Physiotherapy room	1 room × 400 sq ft; treatment table ×2; parallel bars; exercise equipment	Minimum 1 dedicated physiotherapist
Yoga / wellness room	400 sq ft; rubber mat flooring; wall mirrors; equipment storage	Daily yoga + meditation sessions
Smart sensor monitoring	In-room sensors: motion, fall detection, sleep monitoring — linked to nurse station	Smart monitoring India: ₹15,000–25,000 per room
Emergency call system	Wireless wearable panic button for each resident; linked to nurse station 24/7	Wearable panic button system India
Garden & walking paths	Elderly-safe garden: no steps, smooth pathways, seating every 20m, shade	Sensory garden design — architect to plan
Temple/prayer room	Small temple + prayer/meditation space; open to all faiths	50 sq ft per faith section
Intergenerational programme	Weekly structured interaction with school students — activity room + garden space	Scheduled by activity coordinator

1.4 Daily Services Included in Monthly Fee

Service	Included in Fee?	Notes
3 meals/day + snacks (dietary-appropriate)	Yes	Separate kitchen or shared with campus canteen
Housekeeping and room cleaning	Yes	Daily cleaning
Laundry services	Yes	Campus laundry or in-house
Basic medical (nurse,	Yes	Nurse on duty 24/7

medications)		
Physiotherapy sessions	Yes	Per schedule
Activities and outings	Yes	Yoga, bhajans, craft, physical games, outings
Wi-Fi and TV	Yes	—
Electricity and water	Yes	—

1.5 Fees & Financials

Fee Type	Amount	Notes
Monthly fee — general resident	₹20,000 per month	Per survey response
Monthly fee — premium resident	₹60,000 per month	Premium suite; extra services
One-time entry deposit	3 months deposit (refundable on departure)	Per survey response
Subsidised/free seats	10% of total = 5 seats	CSR or government funding
Subsidy funding model	Mixed — CSR, foundation grants, government schemes	TBD

1.6 Staffing Plan

Role	Count	Notes
Caregivers	5	1 per 10 residents; 2 shifts
Registered Nurse	1	24/7 coverage with part-time support
Physiotherapist	1	Full-time or visiting
Psychologist	1	Visiting — weekly sessions
Activity coordinator	1	Daily activities + outings
Housekeeping	3	Daily room cleaning + laundry
Cook/Chef	1 + 4 helpers	Cooking for 50 residents
Admin / Office Bearer	1	Reception + billing + records
Warden	1	24-hour residential warden
TOTAL	~18 staff	Ratio 1 staff per ~3 residents including warden

1.7 Building Specification — Old Age Home

Parameter	Value
Location	Separate dedicated building — peaceful zone of campus; away from school noise
Total built-up area	~24,800 sq ft
Floors	2 (Ground + First) — all resident rooms on Ground Floor preferred for elderly accessibility
Estimated construction cost (@ ₹2,500/sq ft)	₹6,20,00,000
Accessibility	Full wheelchair access throughout; ramps (no steps); wide doors (minimum 36"); grab bars in all bathrooms
Flooring	Anti-slip throughout; rubber/vinyl in common areas and bathrooms
Garden area	Ground-level accessible sensory garden — 5,000 sq ft approx.; no FSI consumed
Kitchen	Separate elderly-appropriate kitchen or connection to campus central canteen

SOCIAL PROJECTS — PROJECT SPECIFICATION

Care Center

2. Care Center — Full Specification

2.1 Scope & Beneficiaries

Primary Beneficiaries: Adults with physical disabilities + adults with intellectual disabilities

Total Capacity: 50 persons (day care + residential combined)

Community Access: Yes — open to surrounding community (not campus-only)

Mode: Both day care and residential care

Skill Campus Integration: Yes — skill students work here as structured internship

Special Needs Categories: All categories — ASD, Down Syndrome, CP, visual impairment, hearing impairment, intellectual/learning disabilities, physical disabilities, multiple disabilities

Intergenerational: Yes — regular structured activities with Old Age Home residents

2.2 Therapies Offered On-Site

Therapy	Provided?	Room Required	Area (sq ft)
Occupational therapy	Yes	Dedicated therapy room	200
Physiotherapy	Yes	Dedicated therapy room	200
Applied Behaviour Analysis (ABA)	Yes	Observation room (one-way glass)	200
Music therapy	Yes	Multi-use room	150
Art therapy	Yes	Multi-use room	150
Sensory integration therapy	Yes	Sensory room	300
Speech therapy	Not mentioned — recommended addition	Therapy room	150
Special Educator on staff	Yes — qualification TBD	Staff office	100

2.3 Space Programme — Care Center

Space	Count	Area (sq ft)	Total (sq ft)	Civil Notes
-------	-------	--------------	---------------	-------------

Individual therapy rooms	6	200	1,200	Soundproofed; natural light; accessible
Sensory room	1	300	300	Padded walls + floor; low light controls; sensory equipment
Colourful indoor play area	1	800	800	Padded flooring; no sharp corners; bright colours
Sensory garden / outdoor play area	1	2,000	2,000	Ground-level; sand pit; water play; no FSI consumed
Observation room (one-way glass)	1	200	200	Adjacent to therapy room; glass panel into therapy room
Staff office + resource room	1	300	300	Special educator + therapists; storage
Dining area (adapted furniture)	1	400	400	Adapted tables + chairs for persons with disabilities
Nap/rest rooms (individual cots)	1	400	400	6 cots; curtained; accessible
Parent meeting + counselling room	1	200	200	Private; comfortable seating
Medical/first aid room	1	200	200	First aid + medication storage
Clean washrooms/hygiene area	2	200	400	Accessible; adult-size changing table; shower
30 residential rooms (200 sq ft each)	30	200	6,000	As per survey response: 30 rooms
Common lobby + seating	1	400	400	Welcoming; natural light; family waiting
TOTAL NET BUILT-UP	—	—	~12,800 sq ft	Across ground floor + residential rooms
GROSS (incl. 30% circulation)	—	—	~16,640 sq ft	

2.4 Non-Negotiable Safety Features

Safety Feature	Specification
CCTV in all rooms	Parent access via Eduval app — real-time view during therapy sessions
Padded flooring in play areas	Rubber/foam padding min 50mm thick; no sharp edges anywhere
Secured single entry/exit	RFID/biometric controlled; visitor management via Eduval ERP
No sharp corners / rounded furniture	All furniture: radiused edges; wall-mounted items at safe heights

First aid trained staff at all times	Minimum 2 first aid certified staff on duty at all times
Emergency call system	Staff panic button + room emergency call; linked to nurse
Sensory room safety	Padded walls + floor; no hard surfaces; soft lighting controls

2.5 Building Specification — Care Center

Parameter	Value
Location	Adjacent to Old Age Home — shared intergenerational programming
Total built-up	~16,640 sq ft (gross)
Floors	1–2 floors; ground floor for all therapy and activity spaces; residential rooms if 2 floors
Estimated construction cost	~₹4,16,00,000 (@ ₹2,500/sq ft)
Special construction	Sensory room: padded walls (specialist supplier); acoustic treatment
Outdoor sensory garden	2,000 sq ft; ground-level; no steps; sand pit + water play + shaded seating; no FSI
Assistive technology provision	Power points + data outlets in each therapy room; ADA-compliant

SOCIAL PROJECTS — PROJECT SPECIFICATION

Hospital

3. Hospital — Full Specification

3.1 Scale & Type

- Type:** Small community hospital (20–50 beds)
- Primary Beneficiaries:** Campus students + coaching + skill; campus staff & families; residential bungalow community; Old Age Home + Care Center residents; surrounding rural villages/taluka
- Teaching Hospital:** Internship placements only (Skill Campus nursing/healthcare students)
- Rural Health Outreach:** No — confirmed
- OT (Operation Theatre):** None — no surgeries planned
- Maternity Ward:** No
- Emergency Ward:** Emergency observation only (not full ICU — survey said 'emergency observation only')
- Payment:** Deeper Coins accepted for medical bills on campus; subsidised for campus community
- Health Insurance:** No empanelment with Ayushman Bharat or private insurance planned

3.2 Bed Configuration (from survey)

Survey response on bed layout: 4 private rooms + 2 semi-private rooms (3 beds each = 6 beds) + 1 general ward (6 beds) + 1 ICU (2 beds) + 1 inpatient ward (TBD). Estimated total: 18–22 beds at launch. Full capacity target: 50 beds.

Ward/Room Type	Count	Beds	Total Beds	Area (sq ft)	Notes
Private rooms (single-bed, attached WC)	4	1	4	200 sq ft each	Private; attached WC; TV; AC
Semi-private rooms (3-bed)	2	3	6	350 sq ft each	Curtained; shared bathroom
General ward (6-bed)	1	6	6	600 sq ft	Open ward; nurse station adjacent
ICU (2-bed, basic)	1	2	2	400 sq ft	Basic ICU; ventilator provision; monitoring
Emergency observation room	1	2	2	300 sq ft	Stretcher access; emergency equipment

TOTAL AT LAUNCH	—	—	20 beds	—	Expandable to 50 beds at full capacity
-----------------	---	---	---------	---	--

3.3 Medical Specialties at Launch

Specialty	Type	Staff Required
General Medicine	Primary	2 full-time resident doctors
Paediatrics	Primary	Visiting consultant (2 per week)
Orthopaedics	Primary	Visiting consultant (1–2 per week)
Gynaecology & Obstetrics	Primary (no delivery room)	Visiting consultant (1 per week)
Ophthalmology (eye)	Secondary	Visiting consultant (monthly eye camp)
ENT	Secondary	Visiting consultant
Dentistry & Oral Surgery	Primary (separate dental clinic)	1 resident dentist
Dermatology	Secondary	Visiting consultant
Emergency & Trauma	Basic emergency observation	Resident doctor on duty

3.4 Diagnostic Facilities at Launch

Facility	Planned?	Notes
ECG & Echocardiography	Yes	As per survey — ECG machine; echo on visiting cardiologist schedule
24-hour Pharmacy	Yes	Full pharmacy with licensed pharmacist
Pathology lab (blood, urine, basic tests)	Not mentioned in survey — recommended addition	Basic pathology essential for any hospital
X-ray	Not mentioned — recommended for ortho/trauma	Digital X-ray strongly recommended
Ultrasound	Not mentioned — recommended	For gynaecology and general diagnosis
Blood bank/storage	Not planned for launch	Can be added in Phase 2

3.5 Space Programme — Hospital

Space	Count	Area (sq ft)	Total (sq ft)	Notes
OPD consultation rooms	6	150	900	1 per specialty; OPD target 10 patients/day per room
Private rooms (1-bed, attached WC)	4	200	800	AC; TV; nursing call button; medical gas outlet
Semi-private rooms (3-bed)	2	350	700	Curtained; nursing call button; medical gas
General ward (6-bed)	1	600	600	Open ward; nursing station adjacent; curtained
ICU (2-bed basic)	1	400	400	Monitoring; oxygen; ventilator provision; CCTV
Emergency observation room	1	300	300	Direct ambulance/stretchers access from ground
Dental clinic (2 chairs)	1	300	300	2 dental chairs + X-ray unit; sterilization
24-hour pharmacy	1	200	200	Medicine storage; dispensing counter; refrigerator
Nursing station (per floor)	2	150	300	Direct sight-line to ward; emergency call display
Doctor's rooms + on-call room	3	150	450	Resident doctors; rest room; on-call room
Procedure room	1	300	300	Minor procedures; dressing; injections
Medical records + admin	1	300	300	Paper + digital records; reception; billing
Pathology lab (basic)	1	300	300	Recommended addition — blood test, urine, basic
Store rooms (medical supplies)	2	200	400	Locked; temperature-controlled; controlled substance safe
Biomedical waste storage	1	100	100	Separate external access; bio-hazard compliance
Washrooms (patient)	4	100	400	Male/Female/Accessible/Staff
TOTAL NET BUILT-UP	—	—	~6,450 sq ft	20-bed hospital Phase 1
GROSS (incl. 35% circulation)	—	—	~8,700 sq ft	Hospital needs wider corridors for stretchers

3.6 Building Specification — Hospital

Parameter	Value
Location	Central campus location — accessible to all zones; ambulance direct access
Total built-up	~8,700 sq ft (20-bed Phase 1); expandable to ~20,000 sq ft (50-bed full)
Floors	2 (Ground: OPD + emergency + pharmacy; First: wards + ICU)
Estimated construction cost (@ ₹2,500/sq ft)	₹2,17,50,000 (Phase 1 only)
Critical civil requirements	Medical gas (oxygen, suction) piping throughout; 100% generator backup; hospital-grade electrical; stretcher-width corridors (min 8 ft); ambulance bay at ground level
Power	100% backup generator — no interruption to ICU, emergency, or pharmacy
Medical waste	Separate bio-hazard waste storage + incineration tie-up
NABH certification	Target NABH accreditation — design to comply with NABH standards from Day 1

3.7 Staffing Plan — Hospital

Role	Count (Launch)	Notes
Full-time resident doctors	2	General medicine; 24-hour rotational duty
Visiting consultant doctors	4	Paediatrics, Ortho, Gynaecology, Dentistry — per schedule
Registered nurses	5	3 shifts; ICU-trained for emergency
Pharmacist (licensed)	1	24-hour pharmacy; licensed pharmacist mandatory
Lab technician	1	For basic pathology lab
Admin / billing staff	2	Reception + billing + records
Housekeeping / ward boys	4	Rotational; trained in hospital housekeeping protocols
TOTAL	~19 staff	Expandable as beds increase

4. Social Projects — Complete Cost Summary

Component	Area / Qty	Rate	Estimated Cost (₹)	Notes
CIVIL CONSTRUCTION				
Old Age Home — 2 floors (50 residents)	24,800 sq ft	₹2,500/sq ft	₹6,20,00,000	Fully accessible; anti-slip; garden
Old Age Home garden (accessible sensory garden)	5,000 sq ft	₹500/sq ft	₹25,00,000	Open ground; no FSI
Care Center — 1–2 floors (50 persons)	16,640 sq ft	₹2,500/sq ft	₹4,16,00,000	Sensory room; padded areas; accessible
Care Center sensory garden + outdoor play	2,000 sq ft	₹500/sq ft	₹10,00,000	Open; no FSI
Hospital — 2 floors (20-bed Phase 1)	8,700 sq ft	₹2,500/sq ft	₹2,17,50,000	Medical gas piping; generator; ambulance bay
Hospital utilities (100% generator backup, medical gas)	Lump sum	—	₹80,00,000	Critical: 100% power backup mandatory for hospital
CIVIL SUBTOTAL			₹13,68,50,000	~₹13.7 Crores civil
FIT-OUT & EQUIPMENT				
Old Age Home — furniture (50 rooms + common areas)	50 rooms	—	₹45,00,000	Elderly-appropriate furniture; grab bars; anti-slip mats
Old Age Home — medical	1 set	—	₹15,00,000	Physioth

equipment (physio, nursing)				therapy equipment + nursing kit
Old Age Home — smart sensor monitoring (50 rooms)	50 rooms	₹20,000/room	₹10,00,000	Fall detection + motion sensors per room
Care Center — therapy equipment (6 therapy rooms)	6 rooms	₹2,00,000/room avg	₹12,00,000	OT + PT + ABA + sensory equipment
Care Center — furniture (play area, dining, rooms)	1 set	—	₹20,00,000	Adapted furniture; sensory equipment; padded mats
Care Center — assistive technology devices	30 rooms	₹10,000/room	₹3,00,000	Communication devices; adapted computers
Hospital — medical equipment (OPD + ICU + emergency)	1 set	—	₹40,00,000	Examination tables, ECG machine, echo, monitoring, ventilator
Hospital — dental clinic (2 chairs + X-ray)	2 chairs	₹3,50,000/chair	₹7,00,000	Dental unit India ₹3–4L per chair installed
Hospital — pharmacy (shelving, refrigerators, POS)	1 pharmacy	—	₹8,00,000	Medicine shelving + refrigerators + Deeper Coins POS
Hospital — CCTV + nurse call system	1 hospital	—	₹8,00,000	IP cameras

				+ nurse call button system
FIT-OUT SUBTOTAL			₹1,68,00,000	~₹1.7 Crores
TOTAL — SOCIAL PROJECTS (Civil + Fit-Out)			₹15,36,50,000	~₹15.4 Crores
Contingency (10%)			₹1,53,65,000	
GRAND TOTAL — SOCIAL PROJECTS			₹16,90,15,000	~₹16.9 Crores

4.1 Board Decisions Required — Social Projects

#	Decision	Status
1	Minimum age for Old Age Home — confirm 50+ (survey) or standard 60+ (norm)	Confirm
2	Hospital inpatient bed count at launch — confirm 20 beds (our estimate from survey)	Confirm
3	Pathology lab and X-ray — add to hospital at launch or Phase 2?	Recommend adding at launch
4	Medical fee structure — free/subsidised/at-cost for campus students and staff	Survey: To be decided
5	Hospital land allocation — central campus location confirmed?	Confirm location on master plan
6	Old Age Home — minimum age confirmed as 50+? (standard is 60+)	Confirm
